THE MUSLIM EDUCATIONAL SOCIETY (MES)

The last five decades have been witnessing a remarkable and glorious transformation in the educational upbringing of the Muslims in Kerala, traditionally the most backward community in education. The driving force behind this enviable achievement has been the committed and tiring toil of THE MUSLIM EDUCATIONAL SOCIETY (MES).

The movement started under the great leadership of late Dr. P K Abdul Gafoor in 1964 at Calicut, wholeheartedly supported by a large number of professionals and businessmen and in a short span of time this great movement had its branches spread to all districts in Kerala. As on today, it is the largest Educational organization in our nation with a strength of more than 20,000 active members, 85,000 students and staff members numbering 15000. It not only has Units in each and every District of Kerala, but also has stretched to neighbouring states as well to the Middle East countries.

TOWARDS A BETTER TOMORROW

Our country requires many architects, technologists and managers to meet the challenges of the 21st century. MES endeavours to help our country face this challenge with special emphasis on the region and their community. With constant interaction with the industrial and business community, MES aims not only to emerge as a centre for teaching technology and management, but also to become a centre for research and development.
