ENGAGEMENT**

The last six decades have been witnessing a remarkable and glorious transformation in the upbringing of the backward communities through education, especially Muslims in Kerala. The driving force behind this enviable achievement has been the committed and tiring toil of THE MUSLIM EDUCATIONAL SOCIETY (MES)

The movement started under the great leadership of late Dr. P.K. Abdul Gafoor in 1964 at Calicut, wholeheartedly supported by a large number of professionals and businessmen and in a short span of time this great movement had its branches spread to all districts in Kerala. As on today, it is the largest Educational organization in our nation with a strength of more than 20,000 active members, 85,000 students and staff members numbering 15,000. It not only has Units in each and every District of Kerala, but also has stretched to neighboring states as well to the Middle East countries.

TOWARDS A BETTER TOMORROW

Our country requires many architects, technologists and managers to meet the challenges of the 21st century. MES endeavours to help our country face this challenge with special emphasis on the region and their community. With constant interaction with the industrial and business community, MES aims not only to emerge as a centre for teaching technology and management, but also to become a centre for research and development

The *Muslim Educational Society (MES)* has been at the forefront of establishing self-financing and autonomous institutions in Kerala. Recognizing its leadership, the Government of Kerala selected MES to pioneer the concept of self-financing education within the state.

Founded in 2013, the **MES College of Architecture**, Kakkodi, Kozhikode, began with an initial intake of 40 students. It was established specifically to serve the northern regions of Kerala, providing local students with convenient access to high-quality architectural education.

The college is situated atop Nedumalakkunnu in Kakkodi, on the outskirts of Calicut city. The campus spans 12 acres, offering ample space for future expansion and development. Its stunning natural setting provides an ideal environment for architectural study and creative inspiration.

Residential accommodations are available for both students and faculty. This includes an on-campus girls' hostel with a capacity for 60 students and a boys' residence located in Kakkodi town.

The institution is recognized by the **Council of Architecture (COA)**, New Delhi, and the **Government of Kerala**. It is officially affiliated with the **University of Calicut**.

The College is easily accessible by road and rail, being only 12km from Kozhikode railway station. The nearest Airport is Calicut International Airport, 38 km away from the College. College bus facility is available from Calicut city.

"Medical and accident insurance coverage for all students"
